Giving Shape to Ideas

# A HEAD START ON HIGHER SECURITY FOR K-12 SCHOOLS, COLLEGES AND UNIVERSITIES.

Of all the resources in education, your student records and course content can be the most valuable – and also the most vulnerable. That's why Konica Minolta offers lock-down protection with bizhub® SECURE Platinum for Education: a set of enhanced password and data security measures to give your bizhub MFP an extra level of security. We offer enhanced safeguard services provided by your Konica Minolta field engineer. Ensure that your educational data is more than just secure – it's bizhub SECURE.

# bizhub SECURE PLATINUM FOR EDUCATION

**Secure measures for total peace of mind. Security features in compliance with FERPA (Family Educational Rights and Privacy Act) guidelines are available for Konica Minolta MFPs to identify users and restrict access with secure authentication in any form.**

## Advanced Solutions

At Konica Minolta, we understand that your school may not have the bandwidth or infrastructure to enable, configure and track the security functions that are required for compliance of internal mandates.

That is why we developed the bizhub SECURE Platinum for Education Service – to provide you with the resource you need to lockdown and protect any document data that might reside on the bizhub's internal storage media.

To secure and protect any document image data that might be present on the storage media, the following security functions can be enabled:

- Storage Media Encryption
- Storage Media Lock Password
- Automatic Deletion of temporary  image data (applies to engines with HDD)
- Data overwrite of electronic documents on a timed basis

Ultimately, protecting student information is everyone's responsibility. Konica Minolta has led the industry in providing enhanced security features for the digital era – and with powerful bizhub SECURE Platinum for Education functions activated by your Konica Minolta Field Engineer, you'll have an additional line of defense against data theft and unauthorized access to educational documents or devices.

To order the bizhub SECURE Platinum for Education Service, just contact your bizhub representative, and count on Konica Minolta to provide the MFP security services that your educational environment demands.

## Konica Minolta's bizhub SECURE Platinum for Education provides the following set of features:

Advanced network and storage media security functionality to meet the needs of schools and universities. Bizhub SECURE Platinum for Education adds an enhanced layer of security to network ports and protocols - to further safeguard student information (FERPA compliance).

- Create a 20-digit secure alphanumeric password to lockdown your bizhub storage media
- Encrypt the entire contents of your bizhub SSD for remarkable data security
- Eliminate any trace of data even after it's been deleted with Temporary Data Overwrite (Temporary Data Overwrite conforms to DoD methods)
- Time your bizhub MFP to auto delete any material located in personal or public User Boxes, System User Boxes, Documents and Folders
- Disable Non-secured and unwanted Services, Protocols and Ports at the MFP
- Enable TLS v1.2* or v1.3 on the MFP (self-signed certificate)
- Enable Network User Authentication
- Enable MFP Audit Logs
